

## Electricity Quick Guide for Traders

**Applies to: All Camden-managed markets**

### **DO:**

- Use **PAT-tested** equipment.
- Get **written approval** for every electrical item.
- Use **BS EN 60309** plugs and weatherproof cables.
- Keep cables tidy and off the ground.
- Use a **30mA RCD** for handheld or weather-exposed items.
- Stay within your maximum load.
- Turn everything **OFF** and unplug at the end of the day.
- Report faults immediately.
- Keep bollard covers secure.

### **DO NOT:**

- Do **NOT** open or tamper with feeder pillars.
- Do **NOT** plug in unapproved equipment.
- Do **NOT** use heaters/cookers without permission.
- Do **NOT** trail cables on the ground.
- Do **NOT** connect to buildings without written consent.
- Do **NOT** exceed maximum amperage.
- Do **NOT** use any power supply other than Camden's where provided.

### **If Using Non-Council Power (Only with permission):**

- Cables must be **overhead**.
- Minimum **2.6m** above footway.
- Minimum **5.1m** above carriageway.
- Weather-protected.

### **Damage & Charges:**

- You must pay for all electricity used.
- You must pay for any damage caused.
- Misuse may remove your market licence.
