

What is antisemitism?

Antisemitism means hating Jewish people

Antisemitism has been in the news lately

This is because an English musician called Wiley posted horrible lies about Jewish people on social media

He is not the only person to have done this

Some politicians have been sacked from their jobs for sharing lies too

Jewish people have the same ethnic origin – they share the same history and cultural traditions

Their religion is called Judaism

Some people do not like Jewish people

The Jewish people have faced hatred and had lies told about them for hundreds of years

Antisemitism can take many forms like

- verbal abuse
- physical attacks on people and groups
- blaming Jewish people for bad things that happen in the world

Antisemitism is racism and a hate crime

People are trying harder to stop bad things like antisemitism and racism

If you are worried about antisemitism or hate crime you can talk to your support worker or named worker
